## Career Objective

I'm a fresher full-stack developer with a genuine interest in building useful and user-friendly web applications. I've worked with languages like Java, C, and Python during my learning, and also have a decent grip on SQL and Data Structures & Algorithms. I'm now looking for an opportunity where I can apply what I've learned, gain real-world experience, and keep improving my skills by working on practical projects with a good team.

---

## Education

|                                                                          |                           |
|--------------------------------------------------------------------------|---------------------------|
| <b>Brainware University</b>                                              | Barasat, West Bengal      |
| Bachelor of Computer Applications, SGPA: 8.80 (4 <sup>th</sup> Semester) | August 2023 – Ongoing     |
| <b>Raina Swami Bholananda Vidyayatan</b>                                 | Raina , West Bengal       |
| Higher Secondary, 67% Marks (Science)                                    | April 2021 – June 2023    |
| <b>Deno Sachchidananda Vidyabhavan</b>                                   | Raina , West Bengal       |
| Secondary, 90% Marks                                                     | January 2015 – April 2021 |

---

## Technical Skills

|                              |                                                |
|------------------------------|------------------------------------------------|
| <b>Programming Language:</b> | C, Python, Java.                               |
| <b>Web Technologies:</b>     | HTML, CSS, JavaScript, PHP, Node.js, React.js. |
| <b>Tools:</b>                | Git, GitHub, VS Code.                          |
| <b>Database:</b>             | SQL, MongoDB (Currently Learning).             |

| <b>Neurons and Token-sA Practical Workshop on Machine Learning, Deep Learning, LLMs and Generative AI</b>                                                                                                                                                       | 17 <sup>th</sup> & 18 <sup>th</sup> May 2025 |
| <ul style="list-style-type: none"><li>Practical workshop on the fundamentals of Machine Learning, Deep Learning, Large Language Models and Generative AI. Learned the practical details on the functioning of the modern AI systems, such as ChatGPT.</li></ul> |                                              |

---

## Internships

### Full Stack Developer Intern [Future Interns]

23 Jun – 23 Jul 2025

- Worked on full-stack web apps using React, Node.js, Express, and SQL. Built responsive UIs, created APIs, and deployed projects on Render and GitHub.
- 

## Academic Projects

- **Simple To-Do-List** - A basic task management web app to add, view, and delete daily tasks, built for practicing frontend development. 19-Dec-2024
  - **Simple Amazon Clone Website** - A frontend website replicating Amazon's UI to demonstrate HTML, CSS, and responsive design skills. 12-Feb-2025
  - **Free AI Resume Builder with AI ATS Analysis (Group-Project)** - A smart web app that helps users create professional resumes and analyse them for ATS compatibility using AI. 19-Apr-2025
- 

## Certificate

- Data Representation and Visualization using Python July – August 2024
  - Diploma in Financial Accounting System June – July 2023
- 

## Hobbies

- Online Video Game
  - Watching Movie
- 

## Personal Details

- DOB: 27/01/2006
- Permanent Address: Kowara, Raina, Purba Bardhaman, 713421.
- Languages known: English, Hindi, Bangali.
